

Introduction

In this busy world, do you take time to reflect upon who you are and what your purpose is? Do you contemplate the events of your life and the best ways to work through them? Do you wonder why things happen the way they do and how you can not only make the best of them, but live your life to the fullest?

This booklet was prepared especially for you—for spiritual seekers who want to learn more about and successfully work with the spiritual principles by which the universe operates. We know that the universe operates by spiritual laws, principles that are constant and unchanging. As we learn about these laws and how to live by them, we make a way for ourselves in the world that is purposeful, meaningful, and fulfilling. We are able to express our spiritual nature, to bring into our lives the good we desire, and to bless others with our knowledge, faith, love, and compassion.

The more you know and understand these principles, the richer your life will be. In the pages ahead, the authors discuss Truth ideas and spiritual laws—some may be very familiar to you and some may be new, but each article gives you practical ways to apply Truth ideas in your life. At the end of every article, you'll find questions that invite deeper thought about the ideas presented.

As you read on, know the truth that we know about you—you are a divine creation, a spiritual being, living in a universe in which God is your constant and unfailing source. Bless you, dear friend, as you discover new truths about yourself and new ways to live a spiritual life.

What Is Your *Vision*?

By Gregory Barrette

As you see it to be, so it will be. Even a simple vision, held briefly but clearly in your mind, will work powerfully to create success!

As *you* begin to live *your* vision, take these steps with me:

1. Look back and see how your goals have turned out. Give thanks for what manifested, and redefine what did not. Perhaps the timing was not quite right, or the pictures you were holding in mind were not entirely in alignment with your highest good.

2. Look at the present moment, and let go all that keeps you from expressing yourself as the powerful, creative, alive person you are. What do you want to let go of?

3. Look into the future, and set goals that will create satisfaction for you. These goals will magnetize your success. Dream boldly! Your vision determines the size of cup God can fill with blessings.

“In the beginning was the Word, and the Word was with God” (Jn. 1:1). Your word is your Godlike power to create. Envision today as an empty slate that is just waiting for your hand. You are a creator—a cocreator with God!

Imagine what it would feel like if you were the powerful, joyous, successful, and prosperous person you hope to be. Now imagine what it would look like. Let these visions be your first step in creating goals that express the magnificence that you are!
